Telephone:	563-580-3319

I hereby certify that the animal examined is the animal described on this application, and understand that the results of this exam will be submitted by the examining ophthalmologist to the database for statistical gathering purposes. I understand that only passing results will be released to the public unless the initials of a registered owner or authorized agent appear in the authorization box below which permits the OFA to release non-passing results to the public. **I further understand that ALL results, both passing and non-passing, will be made available to ophthalmologists who may examine this dog at a future date.**

Signature of owner or authorized agent/representative

03/18/2022

Date of Exam (mm/dd/yyyy)

<input checked="" type="checkbox"/>	I DID verify the microchip/tattoo on this dog.
<input type="checkbox"/>	I DID NOT verify the microchip/tattoo on this dog.
<input type="checkbox"/>	NO MICROCHIP/TATTOO PRESENT

I certify that I have performed this ophthalmic examination using pharmacological mydriasis, ophthalmoscopy, and biomicroscopy.

NORMAL

Comments

Dorsal retinal venule arches nasally but structurally otherwise normal retina/fundus so considered normal variation.
